Home Run Software Services, Inc. Introduces Short Run Business Card DVD-R Production

HUNTINGTON BEACH, CA - August 10, 2009 - Home Run Software Services, Inc., a leader in **CD and DVD duplication and replication**, today announced that it has introduced **short run business card DVD-R duplication**. Known for its high quality CD and DVD duplication and replication, Home Run Software Services, Inc. is a recognized leader in providing turnkey media manufacturing and fulfillment solutions to companies throughout the United States.

Home Run has a long history of providing production of large quantities of **business card DVDs in Huntington Beach** and beyond through the replication process. The addition of short run *business card DVD* duplication is a great step in managing niche launches. Small runs are also often an important step in testing new concepts before committing to a larger run of thousands or even hundreds of thousands.

With our large duplication capacity we can easily supply completed product in a very short time period. In some cases we have supplied more than 20,000 completed CDs in less than 24 hours. This large duplication capacity, combined with our range of professional print options, ensures that Home Run can tailor a solution for a client's media reproduction challenges.

About The Home Run Media Group

Home Run Software Services Inc., is a full service source for quality multimedia programming and media reproduction. Located in *Huntington Beach, California* and founded in March 1992, Home Run Software Services, Inc. started as a diskette duplication company, specializing in high volume quick turns. Patrick Brenden, president and founder, soon realized the change of market and began to focus on CD and DVD duplication and replication. Home Run's services have further expanded to include packaging and assembly, fulfillment, multimedia programming, warehouse services, document reproduction, and architectural signage. Committed to customer service, Home Run is a superior project management company that delivers high quality, on-time service to its clients. For more information please visit www.home-run.com
